

Calendar No. 689

114TH CONGRESS
2D SESSION

S. 2817

[Report No. 114-385]

To improve understanding and forecasting of space weather events, and for other purposes.

IN THE SENATE OF THE UNITED STATES

APRIL 19, 2016

Mr. PETERS (for himself, Mr. GARDNER, Mr. BOOKER, and Mrs. SHAHEEN) introduced the following bill; which was read twice and referred to the Committee on Commerce, Science, and Transportation

NOVEMBER 28, 2016

Reported by Mr. THUNE, with an amendment

[Strike out all after the enacting clause and insert the part printed in italic]

A BILL

To improve understanding and forecasting of space weather events, and for other purposes.

1 *Be it enacted by the Senate and House of Representa-*

2 *tives of the United States of America in Congress assembled,*

3 **SECTION 1. SHORT TITLE.**

4 This Act may be cited as the “Space Weather Re-

5 *search and Forecasting Act”.*

1 SEC. 2. SPACE WEATHER.

2 (a) IN GENERAL.—Subtitle VI of title 51, United
3 States Code, is amended by adding after chapter 605 the
4 following:

5 **“CHAPTER 607—SPACE WEATHER**

“60701. Space weather;

“60702. Observations and forecasting;

“60703. Research and technology;

“60704. Space weather data;

6 **“§ 60701. Space weather**

7 “(a) FINDINGS.—Congress makes the following find-
8 ings:

9 “(1) Space weather events pose a significant
10 threat to humans working in the space environment
11 and to modern technological systems.

12 “(2) The effects of severe space weather events
13 on the electric power grid, satellites and satellite
14 communications and information, airline operations,
15 astronauts living and working in space, and space-
16 based position, navigation, and timing systems could
17 have significant societal, economic, national security,
18 and health impacts.

19 “(3) Earth and space observations provide eru-
20 cial data necessary to predict and warn about space
21 weather events.

22 “(4) Clear roles and accountability of Federal
23 departments and agencies are critical for an efficient

1 and effective response to threats posed by space
2 weather.

3 “(5) In October 2015, the National Science and
4 Technology Council published a National Space
5 Weather Strategy and a National Space Weather
6 Action Plan seeking to integrate national space
7 weather efforts and add new capabilities to meet in-
8 creasing demand for space weather information.

9 “(b) NATIONAL SPACE WEATHER PROGRAM.—In
10 order to understand and respond to the adverse effects
11 of space weather, the National Space Weather Program
12 shall coordinate, collaborate, and leverage capabilities
13 across participating Federal agencies, including—

14 “(1) the National Oceanic and Atmospheric Ad-
15 ministration;

16 “(2) the National Aeronautics and Space Ad-
17 ministration;

18 “(3) the National Science Foundation;

19 “(4) the Department of Defense;

20 “(5) the Department of the Interior;

21 “(6) the Department of Homeland Security;

22 “(7) the Department of Energy;

23 “(8) the Department of Transportation; and

24 “(9) the Department of State.

25 “(c) FEDERAL AGENCY ROLES.—

1 “(1) FINDINGS.—Congress finds that—

2 “(A) the National Oceanic and Atmos-
3 pheric Administration provides operational
4 space weather forecasting and monitoring for
5 civil applications; maintains ground and space-
6 based assets to provide observations needed for
7 forecasting, prediction, and warnings, and de-
8 velops requirements for space weather fore-
9 casting technologies and science;

10 “(B) the Department of Defense provides
11 operational space weather forecasting, moni-
12 toring, and research for the department’s
13 unique missions and applications;

14 “(C) the National Aeronautics and Space
15 Administration provides increased under-
16 standing of the fundamental physics of the
17 Sun-Earth system through space-based observa-
18 tions and modeling and develops new space-
19 based technologies and missions;

20 “(D) the National Science Foundation pro-
21 vides increased understanding of the Sun-Earth
22 system through ground-based measurements,
23 technologies, and modeling; and

24 “(E) the Department of the Interior col-
25 lects, distributes, and archives operational

1 ground-based magnetometer data in the United
2 States and its territories; and works with the
3 international community to improve global geo-
4 physical monitoring.

5 **“(2) OFFICE OF SCIENCE AND TECHNOLOGY**
6 **POLICY.**—The Director of the Office of Science and
7 Technology Policy shall—

8 “(A) improve the Nation’s ability to pre-
9 pare, avoid, mitigate, respond to, and recover
10 from potentially devastating impacts of space
11 weather events; and

12 “(B) coordinate the activities of the Na-
13 tional Space Weather Program Council mem-
14 bers.

15 “(d) **SPACE WEATHER INTERAGENCY WORKING**
16 **GROUP.**—In order to continue executive branch efforts to
17 understand, prepare, coordinate, and plan for space
18 weather, the National Science and Technology Council
19 shall establish an interagency working group on space
20 weather that includes representatives of the Federal agen-
21 cies participating in the National Space Weather Pro-
22 gram; and of other Federal agencies, as appropriate.

23 “(e) **INTERAGENCY AGREEMENTS.**—

24 “(1) **SENSE OF CONGRESS.**—It is the sense of
25 Congress that the interagency collaboration between

1 the National Aeronautics and Space Administration
2 and the National Oceanic and Atmospheric Adminis-
3 tration on terrestrial weather observations pro-
4 vides—

5 “(A) an effective mechanism for improving
6 weather and climate data collection while avoid-
7 ing unnecessary duplication of capabilities
8 across Federal agencies; and

9 “(B) an agency collaboration model that
10 could benefit space weather observations.

11 “(2) INTERAGENCY AGREEMENTS.—The Ad-
12 ministrator of the National Aeronautics and Space
13 Administration and the Administrator of the Na-
14 tional Oceanic and Atmospheric Administration shall
15 enter into one or more interagency agreements pro-
16 viding for cooperation and collaboration in the devel-
17 opment of space weather spacecraft, instruments,
18 and technologies in accordance with this chapter.

19 **“§ 60702. Observations and forecasting**

20 “(a) POLICY.—It is the policy of the United States
21 to establish and sustain a baseline capability for space
22 weather observations.

23 “(b) INTEGRATED STRATEGY.—

24 “(1) IN GENERAL.—The Director of the Office
25 of Science and Technology Policy, in coordination

1 with the Administrator of the National Oceanic and
2 Atmospheric Administration, the Administrator of
3 the National Aeronautics and Space Administration,
4 the Director of the National Science Foundation,
5 and the Secretary of Defense, and in consultation
6 with the academic community, shall develop an inte-
7 grated strategy for solar and solar wind observations
8 beyond the lifetime of current assets, that con-
9 siders—

10 “(A) the provision of solar wind measure-
11 ments and other measurements essential to
12 space weather forecasting; and

13 “(B) the provision of solar and space
14 weather measurements important for scientific
15 purposes.

16 “(2) CONSIDERATIONS.—In developing the
17 strategy under paragraph (1), the Director of the
18 Office of Science and Technology Policy shall con-
19 sider small satellite options, hosted payloads, com-
20 mercial options, international options, and prize au-
21 thority.

22 “(e) CRITICAL OBSERVATIONS.—In order to sustain
23 current space-based observational capabilities, the Admin-
24 istrator of the National Aeronautics and Space Adminis-
25 tration shall—

1 “(1) maintain operations of the Solar and
2 Heliospheric Observatory/Large Angle and Spec-
3 trometric Coronagraph (referred to in this section as
4 ‘SOHO/LASCO’) for as long as the satellite con-
5 tinues to deliver quality observations; and

6 “(2) prioritize the reception of LASCO data.

7 “(d) ADDITIONAL CAPABILITY FOR SOLAR IMAG-
8 ING.—

9 “(1) IN GENERAL.—The Administrator of the
10 National Oceanic and Atmospheric Administration
11 shall secure reliable secondary capability for near
12 real time coronal mass ejection imagery.

13 “(2) OPTIONS.—The Administrator of the Na-
14 tional Oceanic and Atmospheric Administration, in
15 coordination with the Secretary of Defense and the
16 Administrator of the National Aeronautics and
17 Space Administration, shall develop options to build
18 and deploy one or more instruments for near real-
19 time coronal mass ejection imagery.

20 “(3) CONSIDERATIONS.—In developing options
21 under paragraph (2), the Administrator of the Na-
22 tional Oceanic and Atmospheric Administration shall
23 consider commercial solutions, prize authority, aca-
24 demic and international partnerships, and opportuni-

1 ties to deploy the instrument or instruments as a
2 secondary payload on an upcoming planned launch.

3 “(4) COSTS.—In implementing paragraph (1),
4 the Administrator of the National Oceanic and At-
5 mospherie Administration shall prioritize a cost ef-
6 fective solution.

7 “(5) OPERATIONAL PLANNING.—The Adminis-
8 trator of the National Oceanic and Atmospheric Ad-
9 ministration shall develop an operational contingency
10 plan to provide continuous space weather forecasting
11 in the event of a SOHO/LASCO failure.

12 “(6) BRIEFING.—Not later than 120 days after
13 the date of enactment of the Space Weather Re-
14 search and Forecasting Act, the Administrator of
15 the National Oceanic and Atmospheric Administra-
16 tion shall provide a briefing the Committee on Com-
17 mmerce, Science, and Transportation of the Senate
18 and the Committee on Science, Space, and Tech-
19 nology of the House of Representatives on the op-
20 tions for building and deploying the instrument or
21 instruments described in paragraph (2) and the
22 operational contingency plan developed in paragraph
23 (5).

24 “(e) FOLLOW-ON SPACE-BASED OBSERVATIONS.—
25 The Administrator of the National Oceanic and Atmos-

1 pheric Administration, in coordination with the Secretary
2 of Defense, shall develop requirements and a plan for fol-
3 low-on space-based observations for operational purposes,
4 in accordance with the integrated strategy developed
5 under subsection (b).

6 “(f) REPORT.—Not later than 180 days after the
7 date of enactment of the Space Weather Research and
8 Forecasting Act, the Director of the Office of Science and
9 Technology Policy shall submit to the Committee on Com-
10 mmerce, Science, and Transportation of the Senate and the
11 Committee on Science, Space, and Technology of the
12 House of Representatives a report on the integrated strat-
13 egy under subsection (b), including the plans for follow-
14 on space-based observations under subsection (e).

15 “(g) GROUND-BASED OBSERVATIONS.—The Na-
16 tional Science Foundation and the Air Force shall each—
17 “(1) maintain ground-based observations of the
18 Sun; and

19 “(2) provide space weather data by means of its
20 set of ground-based facilities, including radars,
21 lidars, magnetometers, radio receivers, aurora and
22 airglow imagers, spectrometers, interferometers, and
23 solar observatories.

24 “(h) GROUND-BASED OBSERVATIONS DATA.—The
25 National Science Foundation shall—

1 “(1) provide key data streams from the platforms described in subsection (g) for research and to support space weather model development;

4 “(2) develop experimental models for scientific purposes; and

6 “(3) support the transition of the experimental models to operations where appropriate.

8 **“§ 60703. Research and technology**

9 “(a) USER NEEDS.—

10 “(1) IN GENERAL.—The Administrator of the National Oceanic and Atmospheric Administration and the Secretary of the Air Force, in conjunction with the heads of other relevant Federal agencies, shall conduct a comprehensive survey to identify and prioritize the needs of space weather forecast users, including space weather data and space weather forecast data needed to improve services and inform research priorities and technology needs.

19 “(2) CONTENTS.—In conducting the comprehensive survey under paragraph (1), the Administrator of the National Oceanic and Atmospheric Administration and the Secretary of the Air Force, at a minimum, shall—

24 “(A) consider the goals for forecast lead time, accuracy, coverage, timeliness, data rate,

1 and data quality for space weather observa-
2 tions;

3 “(B) identify opportunities to address the
4 needs identified under paragraph (1) through
5 collaborations with academia, the private sector,
6 and the international community;

7 “(C) identify opportunities for new tech-
8 nologies and instrumentation to address the
9 needs identified under paragraph (1); and

10 “(D) publish a report on the findings
11 under subparagraphs (A) through (C).

12 “(3) PUBLICATION.—Not later than 4 years
13 after the date of enactment of the Space Weather
14 Research and Forecasting Act, the Administrator of
15 the National Oceanic and Atmospheric Administra-
16 tion and the Secretary of the Air Force shall—

17 “(A) make the results of the comprehen-
18 sive survey publicly available; and

19 “(B) notify the Committee on Commerce,
20 Science, and Transportation of the Senate and
21 the Committee on Science, Space, and Tech-
22 nology of the House of Representatives of the
23 publication under subparagraph (A).

24 “(b) RESEARCH ACTIVITIES.—

1 “(1) BASIC RESEARCH.—As part of the Na-
2 tional Space Weather Program, the Director of the
3 National Science Foundation, the Administrator of
4 the National Aeronautics and Space Administration,
5 and the Secretary of Defense shall continue to carry
6 out basic research activities on heliophysics,
7 geospace science, and space weather and support
8 competitive, merit-based, peer-reviewed proposals for
9 research, modeling, and monitoring of space weather
10 and its impacts, including science goals outlined in
11 Solar and Space Physics Decadal surveys conducted
12 by the National Academy of Sciences.

13 “(2) MULTIDISCIPLINARY RESEARCH.—

14 “(A) FINDINGS.—Congress finds that the
15 multidisciplinary nature of solar and space
16 physics creates funding challenges that require
17 coordination across scientific disciplines and
18 Federal agencies.

19 “(B) MULTIDISCIPLINARY RESEARCH.—As
20 part of the National Space Weather Program,
21 the Director of the National Science Foundation,
22 the Administrator of the National Oceanic
23 and Atmospheric Administration, and the Ad-
24 ministrator of the National Aeronautics and
25 Space Administration shall pursue multidisci-

1 plinary research in subjects that further our
2 understanding of solar physics, space physics,
3 and space weather.

4 “(C) SENSE OF CONGRESS.—It is the
5 sense of Congress that the Administrator of the
6 National Aeronautics and Space Administration
7 and the Director of the National Science Founda-
8 tion should support competitively awarded
9 Heliophysics Science Centers.

10 “(e) SCIENCE MISSIONS.—The Administrator of the
11 National Aeronautics and Space Administration shall seek
12 to implement missions that meet the science objectives
13 identified in Solar and Space Physics Decadal surveys con-
14 ducted by the National Academy of Sciences.

15 “(d) RESEARCH TO OPERATIONS.—

16 “(1) IN GENERAL.—The Administrator of the
17 National Aeronautics and Space Administration, the
18 Director of the National Science Foundation, the
19 Administrator of the National Oceanic and Atmos-
20 pheric Administration, and the Secretary of the Air
21 Force, shall—

22 “(A) develop a formal mechanism to tran-
23 sition National Aeronautics and Space Adminis-
24 tration and National Science Foundation re-
25 search findings, models, and capabilities, as ap-

1 appropriate, to National Oceanic and Atmospheric
2 Administration and Department of Defense
3 space weather operational forecasting centers;
4 and

5 “(B) enhance coordination between re-
6 search modeling centers and forecasting cen-
7 ters.

8 “(2) OPERATIONAL NEEDS.—The Adminis-
9 trator of the National Oceanic and Atmospheric Ad-
10 ministration and the Secretary of Defense, in coordi-
11 nation with the Administrator of the National Aero-
12 nautics and Space Administration and the Director
13 of the National Science Foundation, shall develop a
14 formal mechanism to communicate the operational
15 needs of space weather forecasters to the research
16 community.

17 “(e) TECHNOLOGY DEVELOPMENT.—

18 “(1) FINDINGS.—Congress finds that observa-
19 tions and measurements closer to the Sun and ad-
20 vanced instrumentation would provide for more ad-
21 vanced warning of space weather disturbances (as
22 defined in section 3 of the Space Weather Research
23 and Forecasting Act).

24 “(2) TECHNOLOGY AND INSTRUMENTATION DE-
25 VELOPMENT.—The Administrator of the National

1 Aeronautics and Space Administration and the Di-
2 rector of the National Science Foundation shall sup-
3 port the development of technologies and instrumen-
4 tation to improve space weather forecasting lead-
5 time and accuracy to meet the needs identified by
6 the Administrator of the National Oceanic and At-
7 mospheric Administration.

8 **“§ 60704. Space weather data**

9 “(a) IN GENERAL.—The Administrator of the Na-
10 tional Aeronautics and Space Administration and the Di-
11 rector of the National Science Foundation shall—

12 “(1) make space weather related data obtained
13 for scientific research purposes available to space
14 weather forecasters and operations centers; and

15 “(2) support model development and model ap-
16 plications to space weather forecasting.

17 “(b) RESEARCH.—The Administrator of the National
18 Oceanic and Atmospheric Administration shall make space
19 weather related data obtained from operational forecasting
20 available for scientific research.”.

21 (b) TECHNICAL AND CONFORMING AMENDMENTS.—

22 (1) REPEAL OF SECTION 809.—Section 809 of
23 the National Aeronautics and Space Administration
24 Authorization Act of 2010 (42 U.S.C. 18388) and
25 the item relating to that section in the table of con-

1 tents under section 1(b) of that Act (124 Stat.
 2 2806) are repealed.

3 (2) TABLE OF CHAPTERS.—The table of chapters
 4 of title 51, United States Code, is amended by
 5 adding after the item relating to chapter 605 the fol-
 6 lowing:

“607. Space Weather 60701”.

7 **SEC. 3. SPACE WEATHER METRICS.**

8 (a) DEFINITIONS.—In this section:

9 (1) SPACE WEATHER DISTURBANCE.—The term
 10 “space weather disturbance” includes geo-electric
 11 fields, ionizing radiation, ionospheric disturbances,
 12 solar radio bursts, and upper atmospheric expansion.

13 (2) SPACE WEATHER BENCHMARK.—The term
 14 “space weather benchmark” means the physical
 15 characteristics and conditions describing the nature,
 16 frequency, and intensity of space weather disturb-
 17 ances.

18 (b) BENCHMARKS.—

19 (1) PRELIMINARY.—Not later than 90 days
 20 after the date of enactment of this Act, the Space
 21 Weather Interagency Working Group, established
 22 under section 60701 of title 51, United States Code,
 23 shall—

1 (A) assess existing data, the historical
2 record, models, and peer-reviewed studies on
3 space weather; and

4 (B) develop preliminary benchmarks, based
5 on current scientific understanding and the his-
6 torical record, for measuring solar disturbances.

7 (2) FINAL.—Not later than 18 months after
8 the date the preliminary benchmarks are developed
9 under paragraph (1), the Space Weather Inter-
10 agency Working Group shall publish final bench-
11 marks.

12 (3) REVIEW.—The Administrator of the Na-
13 tional Aeronautics and Space Administration shall
14 contract with the National Academy of Sciences to
15 review the benchmarks established under paragraph
16 (2).

17 (4) REVISIONS.—The Space Weather Inter-
18 agency Working Group shall update and revise the
19 final benchmarks under paragraph (2), as necessary,
20 based on—

21 (A) the results of the review under para-
22 graph (3);

23 (B) any significant new data or advances
24 in scientific understanding that become avail-
25 able; or

1 (C) the evolving needs of entities impacted
2 by solar disturbances.

3 **SEC. 4. PROTECTION OF CRITICAL INFRASTRUCTURE.**

4 (a) **IN GENERAL.**—The Administrator of the Na-
5 tional Oceanic and Atmospheric Administration, in con-
6 sultation with the heads of other relevant Federal agen-
7 cies, shall provide information about space weather haz-
8 ards to the Secretary of Homeland Security for purposes
9 of this section.

10 (b) **CRITICAL INFRASTRUCTURE.**—The Secretary of
11 Homeland Security, in consultation with sector-specific
12 agencies, the Administrator of the National Oceanic and
13 Atmospheric Administration, and the heads of other rel-
14 evant agencies, shall—

15 (1) include, in meeting national critical infra-
16 structure reporting requirements, an assessment of
17 the vulnerability of critical infrastructure to space
18 weather events, as described by the space weather
19 benchmarks under section 3; and

20 (2) support critical infrastructure providers in
21 managing the risks and impacts associated with
22 space weather.

23 (c) **PROHIBITION ON NEW REGULATORY AUTHOR-
24 ITY.**—Nothing in subsection (b) may be construed to grant
25 the Secretary of Homeland Security any authority to pro-

1 mulgate regulations that were not in effect on the day be-
2 fore the date of enactment of this Act.

3 (d) DEFINITION OF SECTOR-SPECIFIC AGENCY.—In
4 this section, the term “sector-specific agency” has the
5 meaning given the term in Presidential Policy Directive-
6 21 of February 12, 2013 (Critical Infrastructure Security
7 and Resilience), or any successor.

8 **SEC. 5. PROTECTION OF NATIONAL SECURITY ASSETS.**

9 (a) IN GENERAL.—The National Security Council, in
10 consultation with the Office of the Director of National
11 Intelligence, the Secretary of Defense, and heads of other
12 relevant Federal agencies, shall—

13 (1) assess the vulnerability of the national secu-
14 rity community to space weather events, as described
15 by the space weather benchmarks under section 3;
16 and

17 (2) develop national security mechanisms to
18 protect national security assets from space weather
19 threats.

20 (b) COOPERATION.—The Secretary of Defense, in
21 consultation with the heads of other relevant Federal
22 agencies, shall provide information about space weather
23 hazards to the National Security Council, the Director of
24 National Intelligence, and heads of Defense Agencies for
25 purposes of this section.

1 **SECTION 1. SHORT TITLE.**

2 *This Act may be cited as the “Space Weather Research
3 and Forecasting Act”.*

4 **SEC. 2. SPACE WEATHER.**

5 (a) *IN GENERAL.—Subtitle VI of title 51, United
6 States Code, is amended by adding after chapter 605 the
7 following:*

8 **“CHAPTER 607—SPACE WEATHER**

“60701. Space weather
“60702. Observations and forecasting
“60703. Research and technology
“60704. Space weather data.

9 **“§ 60701. Space weather**

10 “(a) *FINDINGS.—Congress makes the following find-
11 ings:*

12 “(1) *Space weather events pose a significant
13 threat to humans working in the space environment
14 and to modern technological systems.*

15 “(2) *The effects of severe space weather events on
16 the electric power grid, satellites and satellite commu-
17 nications and information, airline operations, astro-
18 nauts living and working in space, and space-based
19 position, navigation, and timing systems could have
20 significant societal, economic, national security, and
21 health impacts.*

1 “(3) *Earth and space observations provide crucial data necessary to predict and warn about space weather events.*

4 “(4) *Clear roles and accountability of Federal departments and agencies are critical for an efficient and effective response to threats posed by space weather.*

8 “(5) *In October 2015, the National Science and Technology Council published a National Space Weather Strategy and a National Space Weather Action Plan seeking to integrate national space weather efforts and add new capabilities to meet increasing demand for space weather information.*

14 “(b) *FEDERAL AGENCY ROLES.—*

15 “(1) *FINDINGS.—Congress finds that—*

16 “(A) *the National Oceanic and Atmospheric Administration provides operational space weather forecasting and monitoring for civil applications, maintains ground and space-based assets to provide observations needed for forecasting, prediction, and warnings, and develops requirements for space weather forecasting technologies and science;*

24 “(B) *the Department of Defense provides operational space weather forecasting, moni-*

1 *toring, and research for the department's unique
2 missions and applications;*

3 “(C) the National Aeronautics and Space
4 Administration provides increased under-
5 standing of the fundamental physics of the Sun-
6 Earth system through space-based observations
7 and modeling, develops new space-based tech-
8 nologies and missions, and monitors space
9 weather for NASA’s space missions;

10 “(D) the National Science Foundation pro-
11 vides increased understanding of the Sun-Earth
12 system through ground-based measurements,
13 technologies, and modeling;

14 “(E) the Department of the Interior collects,
15 distributes, and archives operational ground-
16 based magnetometer data in the United States
17 and its territories, and works with the inter-
18 national community to improve global geo-
19 physical monitoring and develops crustal con-
20 ductivity models to assess and mitigate risk from
21 space weather induced electric ground currents;
22 and

23 “(F) the Federal Aviation Administration
24 provides operational requirements for space
25 weather services in support of aviation and for

1 *coordination of these requirements with the*
2 *International Civil Aviation Organization, inte-*
3 *grates space weather data and products into the*
4 *Next Generation Air Transportation System,*
5 *and conducts real-time monitoring of the charged*
6 *particle radiation environment to protect the*
7 *health and safety of crew and passengers during*
8 *space weather events.*

9 “(2) OFFICE OF SCIENCE AND TECHNOLOGY POL-
10 ICY.—*The Director of the Office of Science and Tech-*
11 *nology Policy shall—*

12 “(A) coordinate the development and imple-
13 mentation of Federal Government activities to
14 improve the Nation’s ability to prepare, avoid,
15 mitigate, respond to, and recover from poten-
16 tially devastating impacts of space weather
17 events; and

18 “(B) coordinate the activities of the Na-
19 tional Space Weather Program members.

20 “(c) SPACE WEATHER INTERAGENCY WORKING
21 GROUP.—*In order to continue coordination of executive*
22 *branch efforts to understand, prepare, coordinate, and plan*
23 *for space weather, the National Science and Technology*
24 *Council shall establish an interagency working group on*
25 *space weather that includes representatives of the Federal*

1 *agencies participating in the National Space Weather Pro-*
2 *gram, and of other Federal agencies, as appropriate.*

3 “(d) NATIONAL SPACE WEATHER PROGRAM.—*In order*
4 *to understand and respond to the adverse effects of space*
5 *weather, the National Space Weather Program shall lever-*
6 *age capabilities across participating Federal agencies, in-*
7 *cluding—*

8 “(1) *the National Oceanic and Atmospheric Ad-*
9 *ministration;*

10 “(2) *the National Aeronautics and Space Ad-*
11 *ministration;*

12 “(3) *the National Science Foundation;*

13 “(4) *the Department of Defense;*

14 “(5) *the Department of the Interior;*

15 “(6) *the Department of Homeland Security;*

16 “(7) *the Department of Energy;*

17 “(8) *the Department of Transportation, includ-*
18 *ing the Federal Aviation Administration; and*

19 “(9) *the Department of State.*

20 “(e) INTERAGENCY AGREEMENTS.—

21 “(1) SENSE OF CONGRESS.—*It is the sense of*
22 *Congress that the interagency collaboration between*
23 *the National Aeronautics and Space Administration*
24 *and the National Oceanic and Atmospheric Adminis-*
25 *tration on terrestrial weather observations provides—*

1 “(A) an effective mechanism for improving
2 weather and climate data collection while avoid-
3 ing unnecessary duplication of capabilities
4 across Federal agencies; and
5 “(B) an agency collaboration model that
6 could benefit space weather observations.

7 “(2) INTERAGENCY AGREEMENTS.—The Admin-
8 istrator of the National Aeronautics and Space Ad-
9 ministration and the Administrator of the National
10 Oceanic and Atmospheric Administration shall enter
11 into 1 or more interagency agreements providing for
12 cooperation and collaboration in the development of
13 space weather spacecraft, instruments, and tech-
14 nologies in accordance with this chapter.

15 **“§ 60702. Observations and forecasting**

16 “(a) POLICY.—It is the policy of the United States to
17 establish and sustain a baseline capability for space weath-
18 er observations.

19 “(b) INTEGRATED STRATEGY.—

20 “(1) IN GENERAL.—The Director of the Office of
21 Science and Technology Policy, in coordination with
22 the Administrator of the National Oceanic and At-
23 mospheric Administration, the Administrator of the
24 National Aeronautics and Space Administration, the
25 Director of the National Science Foundation, and the

1 *Secretary of Defense, and in consultation with the*
2 *academic and commercial communities, shall develop*
3 *an integrated strategy for solar and solar wind obser-*
4 *vations beyond the lifetime of current assets, that con-*
5 *siders—*

6 “(A) *the provision of solar wind measure-*
7 *ments and other measurements essential to space*
8 *weather forecasting; and*

9 “(B) *the provision of solar and space weath-*
10 *er measurements important for scientific pur-*
11 *poses.*

12 “(2) *CONSIDERATIONS.—In developing the strat-*
13 *egy under paragraph (1), the Director of the Office of*
14 *Science and Technology Policy shall consider small*
15 *satellite options, hosted payloads, commercial options,*
16 *international options, and prize authority.*

17 “(c) *CRITICAL OBSERVATIONS.—In order to sustain*
18 *current space-based observational capabilities, the Adminis-*
19 *trator of the National Aeronautics and Space Administra-*
20 *tion shall—*

21 “(1) *in cooperation with the European Space*
22 *Agency, maintain operations of the Solar and*
23 *Heliospheric Observatory/Large Angle and Spec-*
24 *trometric Coronagraph (referred to in this section as*

1 ‘SOHO/LASCO’) for as long as the satellite continues
2 to deliver quality observations; and

3 “(2) prioritize the reception of LASCO data.

4 “(d) ADDITIONAL CAPABILITY FOR SOLAR IMAGING.—

5 “(1) IN GENERAL.—The Administrator of the
6 National Oceanic and Atmospheric Administration
7 shall secure reliable secondary capability for near
8 real-time coronal mass ejection imagery.

9 “(2) OPTIONS.—The Administrator of the Na-
10 tional Oceanic and Atmospheric Administration, in
11 coordination with the Secretary of Defense and the
12 Administrator of the National Aeronautics and Space
13 Administration, shall develop options to build and de-
14 ploy 1 or more instruments for near real-time coronal
15 mass ejection imagery.

16 “(3) CONSIDERATIONS.—In developing options
17 under paragraph (2), the Administrator of the Na-
18 tional Oceanic and Atmospheric Administration shall
19 consider commercial solutions, prize authority, aca-
20 demic and international partnerships, microsatellites,
21 ground-based instruments, and opportunities to de-
22 ploy the instrument or instruments as a secondary
23 payload on an upcoming planned launch.

24 “(4) COSTS.—In implementing paragraph (1),
25 the Administrator of the National Oceanic and At-

1 *mospheric Administration shall prioritize a cost-effic-*
2 *tive solution.*

3 “(5) *OPERATIONAL PLANNING.*—*The Adminis-*
4 *trator of the National Oceanic and Atmospheric Ad-*
5 *ministration shall develop an operational contingency*
6 *plan to provide continuous space weather forecasting*
7 *in the event of a SOHO/LASCO failure.*

8 “(6) *BRIEFING.*—*Not later than 120 days after*
9 *the date of enactment of the Space Weather Research*
10 *and Forecasting Act, the Administrator of the Na-*
11 *tional Oceanic and Atmospheric Administration shall*
12 *provide a briefing to the Committee on Commerce,*
13 *Science, and Transportation of the Senate and the*
14 *Committee on Science, Space, and Technology of the*
15 *House of Representatives on the options for building*
16 *and deploying the instrument or instruments de-*
17 *scribed in paragraph (2) and the operational contin-*
18 *gency plan developed under paragraph (5).*

19 “(e) *FOLLOW-ON SPACE-BASED OBSERVATIONS.*—*The*
20 *Administrator of the National Oceanic and Atmospheric*
21 *Administration, in coordination with the Secretary of De-*
22 *fense, shall develop requirements and a plan for follow-on*
23 *space-based observations for operational purposes, in ac-*
24 *cordance with the integrated strategy developed under sub-*
25 *section (b).*

1 “(f) REPORT.—Not later than 180 days after the date
2 of enactment of the Space Weather Research and Fore-
3 casting Act, the Director of the Office of Science and Tech-
4 nology Policy shall submit to the Committee on Commerce,
5 Science, and Transportation of the Senate and the Com-
6 mittee on Science, Space, and Technology of the House of
7 Representatives a report on the integrated strategy under
8 subsection (b), including the plans for follow-on space-based
9 observations under subsection (e).

10 “(g) GROUND-BASED OBSERVATIONS.—The National
11 Science Foundation, the Air Force, and where practicable
12 in support of the Air Force, the Navy shall each—

13 “(1) maintain and improve, as necessary and
14 advisable, ground-based observations of the Sun in
15 order to help meet the priorities identified in section
16 60703(a); and

17 “(2) provide space weather data by means of its
18 set of ground-based facilities, including radars, lidars,
19 magnetometers, radio receivers, aurora and airglow
20 imagers, spectrometers, interferometers, and solar ob-
21 servatories.

22 “(h) GROUND-BASED OBSERVATIONS DATA.—The Na-
23 tional Science Foundation shall—

1 “(1) provide key data streams from the platforms
2 described in subsection (g) for research and to support
3 space weather model development;

4 “(2) develop experimental models for scientific
5 purposes; and

6 “(3) support the transition of the experimental
7 models to operations where appropriate.

8 **“§ 60703. Research and technology.**

9 “(a) USER NEEDS.—

10 “(1) IN GENERAL.—The Administrator of the
11 National Oceanic and Atmospheric Administration,
12 the Secretary of the Air Force, and where practicable
13 in support of the Air Force, the Secretary of the
14 Navy, in conjunction with the heads of other relevant
15 Federal agencies, shall conduct a comprehensive sur-
16 vey to identify and prioritize the needs of space
17 weather forecast users, including space weather data
18 and space weather forecast data needed to improve
19 services and inform research priorities and technology
20 needs.

21 “(2) CONTENTS.—In conducting the comprehen-
22 sive survey under paragraph (1), the Administrator
23 of the National Oceanic and Atmospheric Administra-
24 tion, the Secretary of the Air Force, and where prac-

1 *ticable in support of the Air Force, the Secretary of
2 the Navy, at a minimum, shall—*

3 “(A) consider the goals for forecast lead
4 time, accuracy, coverage, timeliness, data rate,
5 and data quality for space weather observations;

6 “(B) identify opportunities to address the
7 needs identified under paragraph (1) through
8 collaborations with academia, the private sector,
9 and the international community;

10 “(C) identify opportunities for new tech-
11 nologies and instrumentation to address the
12 needs identified under paragraph (1); and

13 “(D) publish a report on the findings under
14 subparagraphs (A) through (C).

15 “(3) PUBLICATION.—Not later than 1 year after
16 the date of enactment of the Space Weather Research
17 and Forecasting Act, the Administrator of the Na-
18 tional Oceanic and Atmospheric Administration, the
19 Secretary of the Air Force, and where practicable in
20 support of the Air Force, the Secretary of the Navy,
21 shall—

22 “(A) make the results of the comprehensive
23 survey publicly available; and

24 “(B) notify the Committee on Commerce,
25 Science, and Transportation of the Senate and

1 *the Committee on Science, Space, and Tech-*
2 *nology of the House of Representatives of the*
3 *publication under subparagraph (A).*

4 “(b) RESEARCH ACTIVITIES.—

5 “(1) BASIC RESEARCH.—As part of the National
6 Space Weather Program, the Director of the National
7 Science Foundation, Administrator of the National
8 Aeronautics and Space Administration, and Sec-
9 retary of Defense shall continue to carry out basic re-
10 search activities on heliophysics, geospace science, and
11 space weather and support competitive, merit-based,
12 peer-reviewed proposals for research, modeling, and
13 monitoring of space weather and its impacts, includ-
14 ing science goals outlined in Solar and Space Physics
15 Decadal surveys conducted by the National Academy
16 of Sciences.

17 “(2) MULTIDISCIPLINARY RESEARCH.—

18 “(A) FINDINGS.—Congress finds that the
19 multidisciplinary nature of solar and space
20 physics creates funding challenges that require
21 coordination across scientific disciplines and
22 Federal agencies.

23 “(B) MULTIDISCIPLINARY RESEARCH.—As
24 part of the National Space Weather Program,
25 the Director of the National Science Foundation,

1 *the Administrator of the National Oceanic and*
2 *Atmospheric Administration, and the Adminis-*
3 *trator of the National Aeronautics and Space*
4 *Administration shall pursue multidisciplinary*
5 *research in subjects that further our under-*
6 *standing of solar physics, space physics, and*
7 *space weather.*

8 “(C) SENSE OF CONGRESS.—*It is the sense*
9 *of Congress that the Administrator of the Na-*
10 *tional Aeronautics and Space Administration*
11 *and Director of the National Science Foundation*
12 *should support competitively awarded*
13 *Heliophysics Science Centers.*

14 “(c) SCIENCE MISSIONS.—*The Administrator of the*
15 *National Aeronautics and Space Administration shall seek*
16 *to implement missions that meet the science objectives iden-*
17 *tified in Solar and Space Physics Decadal surveys con-*
18 *ducted by the National Academy of Sciences.*

19 “(d) RESEARCH TO OPERATIONS.—

20 “(1) IN GENERAL.—*The Administrator of the*
21 *National Aeronautics and Space Administration, the*
22 *Director of the National Science Foundation, the Ad-*
23 *ministrator of the National Oceanic and Atmospheric*
24 *Administration, the Secretary of the Air Force, and*

1 *where practicable in support of the Air Force, the*
2 *Secretary of the Navy, shall—*

3 “(A) develop a formal mechanism to transition
4 National Aeronautics and Space Administration,
5 National Science Foundation, Air Force,
6 and Navy research findings, models, and capabilities,
7 as appropriate, to National Oceanic and
8 Atmospheric Administration and Department of
9 Defense space weather operational forecasting
10 centers; and

11 “(B) enhance coordination between research
12 modeling centers and forecasting centers.

13 “(2) *OPERATIONAL NEEDS.*—The Administrator
14 of the National Oceanic and Atmospheric Administra-
15 tion and the Secretary of Defense, in coordination
16 with the Administrator of the National Aeronautics
17 and Space Administration and the Director of the
18 National Science Foundation, shall develop a formal
19 mechanism to communicate the operational needs of
20 space weather forecasters to the research community.

21 “(e) *TECHNOLOGY DEVELOPMENT.*—

22 “(1) *FINDINGS.*—Congress finds that observa-
23 tions and measurements closer to the Sun and ad-
24 vanced instrumentation would provide for more ad-
25 vanced warning of space weather disturbances (as de-

1 *fined in section 3 of the Space Weather Research and
2 Forecasting Act).*

3 “(2) TECHNOLOGY AND INSTRUMENTATION DE-
4 VELOPMENT.—The Administrator of the National Aer-
5 onautics and Space Administration and the Director
6 of the National Science Foundation shall support the
7 development of technologies and instrumentation to
8 improve space weather forecasting lead-time and ac-
9 curacy to meet the needs identified by the Adminis-
10 trator of the National Oceanic and Atmospheric Ad-
11 ministration.

12 **“§ 60704. Space weather data**

13 “(a) IN GENERAL.—The Administrator of the National
14 Aeronautics and Space Administration and the Director of
15 the National Science Foundation shall—

16 “(1) make space weather related data obtained
17 for scientific research purposes available to space
18 weather forecasters and operations centers; and

19 “(2) support model development and model ap-
20 plications to space weather forecasting.

21 “(b) RESEARCH.—The Administrator of the National
22 Oceanic and Atmospheric Administration shall make space
23 weather related data obtained from operational forecasting
24 available for scientific research.”.

25 (b) TECHNICAL AND CONFORMING AMENDMENTS.—

1 (1) *REPEAL OF SECTION 809.*—Section 809 of the
2 *National Aeronautics and Space Administration Au-*
3 *thorization Act of 2010* (42 U.S.C. 18388) and the
4 item relating to that section in the table of contents
5 under section 1(b) of that Act (124 Stat. 2806) are
6 repealed.

7 (2) *TABLE OF CHAPTERS.*—The table of chapters
8 of title 51, *United States Code*, is amended by adding
9 after the item relating to chapter 605 the following:

“607 . Space weather 60701”.

10 **SEC. 3. SPACE WEATHER METRICS.**

11 (a) *DEFINITIONS.*—In this section:

12 (1) *SPACE WEATHER DISTURBANCE.*—The term
13 “space weather disturbance” includes geo-electric
14 fields, ionizing radiation, ionospheric disturbances,
15 solar radio bursts, and upper atmospheric expansion.

16 (2) *SPACE WEATHER BENCHMARK.*—The term
17 “space weather benchmark” means the physical char-
18 acteristics and conditions describing the nature, fre-
19 quency, and intensity of space weather disturbances.

20 (b) *BENCHMARKS.*—

21 (1) *PRELIMINARY.*—Not later than 90 days after
22 the date of enactment of this Act, the Space Weather
23 Interagency Working Group, established under section
24 60701 of title 51, *United States Code*, in consultation
25 with academic and commercial experts, shall—

1 (A) assess existing data, the historical
2 record, models, and peer-reviewed studies on
3 space weather; and

4 (B) develop preliminary benchmarks, based
5 on current scientific understanding and the his-
6 torical record, for measuring solar disturbances.

7 (2) FINAL.—Not later than 18 months after the
8 date the preliminary benchmarks are developed under
9 paragraph (1), the Space Weather Interagency Work-
10 ing Group shall publish final benchmarks.

11 (3) REVIEW.—The Administrator of the National
12 Aeronautics and Space Administration shall contract
13 with the National Academy of Sciences to review the
14 benchmarks established under paragraph (2).

15 (4) REVISIONS.—The Space Weather Interagency
16 Working Group shall update and revise the final
17 benchmarks under paragraph (2), as necessary, based
18 on—

19 (A) the results of the review under para-
20 graph (3);

21 (B) any significant new data or advances
22 in scientific understanding that become avail-
23 able; or

24 (C) the evolving needs of entities impacted
25 by solar disturbances.

1 **SEC. 4. PROTECTION OF CRITICAL INFRASTRUCTURE.**

2 (a) *IN GENERAL.*—The Administrator of the National
3 Oceanic and Atmospheric Administration, in consultation
4 with the heads of other relevant Federal agencies, shall pro-
5 vide information about space weather hazards to the Sec-
6 retary of Homeland Security for purposes of this section.

7 (b) *CRITICAL INFRASTRUCTURE.*—The Secretary of
8 Homeland Security, in consultation with sector-specific
9 agencies, the Administrator of the National Oceanic and At-
10 mospheric Administration, and the heads of other relevant
11 agencies, shall—

12 (1) include, in meeting national critical infra-
13 structure reporting requirements, an assessment of the
14 vulnerability of critical infrastructure to space weath-
15 er events, as described by the space weather bench-
16 marks under section 3; and

17 (2) support critical infrastructure providers in
18 managing the risks and impacts associated with space
19 weather.

20 (c) *PROHIBITION ON NEW REGULATORY AUTHOR-
21 ITY.*—Nothing in subsection (b) may be construed to grant
22 the Secretary of Homeland Security any authority to pro-
23 mulgate regulations that was not in effect on the day before
24 the date of enactment of this Act.

25 (d) *DEFINITION OF SECTOR-SPECIFIC AGENCY.*—In
26 this section, the term “sector-specific agency” has the mean-

1 *ing given the term in Presidential Policy Directive–21 of*
2 *February 12, 2013 (Critical Infrastructure Security and*
3 *Resilience), or any successor.*

4 **SEC. 5. PROTECTION OF NATIONAL SECURITY ASSETS.**

5 *(a) IN GENERAL.—The National Security Council, in*
6 *consultation with the Office of the Director of National In-*
7 *telligence, the Secretary of Defense, and the heads of other*
8 *relevant Federal agencies, shall—*

9 *(1) assess the vulnerability of the national secu-*
10 *rity community to space weather events, as described*
11 *by the space weather benchmarks under section 3; and*
12 *(2) develop national security mechanisms to pro-*
13 *tection national security assets from space weather*
14 *threats.*

15 *(b) COOPERATION.—The Secretary of Defense, in con-*
16 *sultation with the heads of other relevant Federal agencies,*
17 *shall provide information about space weather hazards to*
18 *the National Security Council, Director of National Intel-*
19 *ligence, and heads of Defense Agencies for purposes of this*
20 *section.*

21 **SEC. 6. ENSURING THE SAFETY OF CIVIL AVIATION.**

22 *(a) IN GENERAL.—The Administrator of the Federal*
23 *Aviation Administration, in consultation with the heads of*
24 *other relevant Federal agencies, shall—*

1 (1) assess the safety implications and vulner-
2 ability of the national airspace system by space
3 weather events, as described by the space weather
4 benchmarks under section 3;

5 (2) assess methods to mitigate the safety implica-
6 tions and effects of space weather on aviation commu-
7 nication systems, aircraft navigation systems, satellite
8 and ground-based navigation systems, and potential
9 health effects of radiation exposure; and

10 (3) assess options for incorporating space weath-
11 er into operational training for pilots, cabin crew,
12 dispatchers, air traffic controllers, meteorologists, and
13 engineers.

14 (b) SPACE WEATHER COMMUNICATION.—The Admin-
15 istrator of the Federal Aviation Administration, in con-
16 sultation with the heads of other relevant Federal agencies,
17 shall develop methods to increase the interaction between
18 the aviation community and the space weather research and
19 service provider community.

Calendar No. 689

114TH CONGRESS
2D SESSION
S. 2817

[Report No. 114-385]

A BILL

To improve understanding and forecasting of space weather events, and for other purposes.

NOVEMBER 28, 2016

Reported with an amendment
